

Skin-matology Hyaluronic & Niacinamide Microneedling Glide Serum 50ml

A professional microneedling glide serum formulated with Hyaluronic Acid and Niacinamide to support hydration and skin barrier function.

A professional microneedling glide serum formulated with Hyaluronic Acid and Niacinamide to provide optimal glide during aesthetic microneedling treatments while supporting hydration and skin barrier function. Hyaluronic Acid helps replenish and retain moisture, while Niacinamide supports the skin barrier and helps promote a smoother, more balanced-looking complexion. The lightweight formulation allows for comfortable application throughout the treatment. Use 2ml to 5ml per treatment.
