

Skin-matology Niacinamide & Hyaluronic Barrier Support Serum

A lightweight barrier-supporting serum with 5% Niacinamide and 1% Hyaluronic Acid to strengthen the skin barrier and replenish moisture.

A lightweight barrier-supporting and hydrating serum formulated with 5% Niacinamide and 1% Hyaluronic Acid to help strengthen the skin barrier, replenish moisture and improve the appearance of smooth, healthy-looking skin. Niacinamide helps support the skin's natural barrier and promotes a more balanced complexion, while hyaluronic acid provides essential hydration for soft, supple skin. Suitable for all skin types and ideal for morning and evening use. Can be layered with other Skin-matology serums as part of a personalised skincare routine.
