

QuadroStarPRO 940

A compact high-power 940nm diode laser designed primarily for minimally invasive vascular procedures, with specialised fibre-based treatment options.

Treats: endovascular procedures, varicose veins, venous insufficiency and selected vascular procedures.

SPECIFICATIONS

Brand	
Technology	Diode
Technology	Diode
Wavelength	940nm
Maximum Power	Up to 30W
Spot Size	Approximately 1mm
Pulse	1ms–95s / CW
Frequency	0.5–100Hz
Display	5.7" touchscreen
Weight	Under 15kg

APPLICATIONS

- Vein Treatment
- Redness & Vascular Treatment

WARRANTY

1-year warranty, parts and labour
